

Dear Sir.I spent a lot of money to get XM radio so I could select the kind of Quility stations that I want to listion too.This service has been great.Instant Traffic &Weather gives me instant access to my local conditions any time I want without having to wait my some local station to deciide when they would broadcast it.It is also rewarding not to have to listen to the lousy commericals and nonsense from local radio.Please protect my freedom of choice and preserve to wonderful service that I pay. Thank you.Russ Lido
